3G MicroCell Login Help

If you are having problems receiving the personal identification number (PIN) you will use to log in, check the following:

- Confirm that your phone is enabled to receive text messages.
- If you have an AT&T LaptopConnect certified device, you must have AT&T Communication Manager installed to receive text messages. AT&T Communication Manager is a software application that enables customers using AT&T LaptopConnect certified devices a simple solution to connect with the AT&T network and manage Wi-Fi connections. Go to AT&T Communication Manager for instructions on downloading and installing the Communication Manager software.
